# PROFESSIONALS LICENSE TRANSFER

---

2022

## LICENSE TRANSFER

License transfer is a process of re-issuing a professional license under a different facility

All license transfer applications must be made through the online system **MEHAN**

The following are required for the transfer of a license:

1. Invitation of employment from the new facility through (MUNSHAAT)
2. NOC from previous healthcare facility, or proof of cancellation of work permit, or mobility application from LMRA.

A license must be valid to be transferred to another facility through the online system. If the license is expired, the license must be renewed first.

The healthcare facility the applicant intends to transfer to must have the specialty/profession within the scope of its services as mentioned in its license issued by NHRA.

If the application is approved, the notice to pay will be sent through the online system.

Once the payment is done, the electronic license will be generated in the professional's account in **MEHAN**

If the facility does not have the specialty/profession within its scope of service, the application will be rejected.

## LICENSE TRANSFER FEES

Service	Fees
Fees for updating license information	<b>30</b>
