## Definitions:

**Authority:** National Health Regulatory Authority

**Continuing Professional Development (CPD):** A range of learning activities through which healthcare professionals maintain and develop/improve their knowledge and skills/professional performance throughout their career to ensure that they retain their capacity to practice safely, effectively and legally within their evolving scope of practice. CPD is also sometimes referred to as Continuing Medical Education (CME).

**Credentialing:** A process whereby specific licensing title is assigned to a healthcare professional based on recognized and accredited qualifications, training, experience, and current practice.

**Experience:** Hands on clinical experience gained by a licensed healthcare professional during a salaried employment/contractual period and it excludes volunteer jobs, observer-ship, clinical attachments, and electives.

**Fitness to Practice:** A status where the healthcare professional is able to consistently demonstrate ability to practice without any impediments ie. physical or others.

**Discontinuity of Practice:** A defined period of discontinuation of licensed clinical experience/practice.

**Certificate of Good Standing:** A certificate showing evidence that the healthcare professional is competent to practice the profession, has not been found guilty of unprofessional conduct, and that there are no pending or previous disciplinary orders or criminal proceedings against the healthcare professional.

**Healthcare Profession:** A field of healthcare recognized by the Authority.

**Healthcare Professional:** A person who by education, training, certification, and licensure is qualified to provide healthcare services.

**Internship:** A minimum of one year supervised clinical practice pursued by graduates of recognized medical schools to consolidate the knowledge and skill gained during their college study, provided the internship is completed in a university affiliated/accredited educational Hospital with a minimum rotation of six months in medical services and another six months in surgical services.

**License:** A permission granted by the authority to legally practice as a healthcare professional.

**Licensing:** A process of granting a legally protected professional title by the authority.

**Primary Source Verification:** A process of validating documents required for licensure from the issuing organization.

**Qualification:** An educational evidence granted by universities, colleges, academic institutes or schools that are nationally accredited or formally recognized.

**Re-Categorization:** The process of application and assessment for the issuing of a license from one license category to a higher category.

**Level (Tier):** A term used to indicate a category of postgraduate qualifications for physicians based on the level and the presence of the following:

- Structure of the academic program
- Training governance
- Training curriculum when needed
- Entry level examination
- Defined program competency framework
- Competency based assessment
- Hands-on training and independent practice
- Progression of responsibility during training and measurable outcomes at each level
- Final certifying exam
- Independence to practice post qualification
- Requirement to maintain the licensing/qualification

## Acronyms:

**BLE:** Bahrain Licensure Examination

**CGS:** Certificate of Good Standing

**CME:** Continuing Medical Education

**CPD:** Continuing Professional Development

**GP:** General Practitioner

**HEC:** Higher Education Council

**MOE:** Ministry of Education

**NHRA:** National Health Regulatory Authority

**NSE:** NHRA Specialist Examination

**PhD:** Doctor of Philosophy

**PQR:** Physicians Qualification Requirements

**SCH:** Supreme Council of Health

## Preface:

The Supreme Council of Health (SCH) in the Kingdom of Bahrain is pleased to present the revised PQR. The first PQR was issued in 2017. This revision was necessary in order to keep up with the advancements in the healthcare professions to ensure the quality of services provided for the healthcare recipients.

This document applies to all healthcare facilities both in the governmental and private sector to assess the documents submitted by applicants within their geographical jurisdiction to ensure safe and competent delivery of services. Moreover, it places an emphasis on educational standards, experience and licensure requirements for healthcare professionals to be licensed to practice safely in the Kingdom of Bahrain and in accordance with Bahrain laws and benchmarked international best practices.

The SCH would like to acknowledge the efforts of the Medical Advisory Committee members who have taken the time to revise the whole document and update it and would like to thank them for their dedicated efforts and assistance.

# 1. Licensure General Requirements

- All applicants must fulfill all the following requirements in order to qualify for licensure
- Non-Bahraini physicians applying for a license must be no more than 65 years of age. Certain cases may be exempted by the SCH

## 1.1 Educational Qualifications

- Academic qualifications will be evaluated by NHRA
- Medical Schools should be listed in the World's Directory of Medical Schools
- Qualifications must be issued by institutions/colleges recognized in home country
- At the entry level, minimum qualification requirement is high school certificate as per country specific education
- Professional qualifications are evaluated in accordance to the following criteria:
  - The country and institution from which the qualification was awarded
  - The level of national categorization of the qualification
  - The duration and curriculum of study, and the presence of clinical practice/practical training
  - Qualifications acquired through honorary nature, correspondence or online distance learning are not counted towards the PQR
- Qualifications not mentioned in this document may be evaluated and reviewed by NHRA which may grant the applicant with the appropriate title
- Specialty certificates will be accepted with the following conditions and respective tier allocation:
  - Must be obtained after a full-time structured clinical residency program of minimum three (3) years duration
  - Clinical Master's degree of minimum two (2) years of full time course duration\* +

O Clinical PhD of minimum four (4) years course duration\*

\* Holders of these qualifications must provide proof that at least 70-75% of the program is delivered as supervised clinical training

- All Tier 1 and 2 qualifications are exempted from NHRA Specialist Examination
- All Tier 3 qualifications must pass NHRA Specialist Examination if obtained outside the Kingdom of Bahrain
- Non-Bahraini's must fulfill all the required post-qualification experience prior to applying for a license in the Kingdom of Bahrain.

+ Certain exception may be considered by the Medical Advisory Committee for rare specialties

## 1.2 Professional Experience

### 1.2.1: Internship

- All Physicians are required to successfully complete **one (1) year** internship post-graduation, passing through the four major rotations (internal medicine, general surgery, obstetrics & gynecology, and pediatrics) for minimum of two months duration for each specialty.

### 1.2.2: Experience:

- The applicant's experience must be relevant to the category applied for and must have been accomplished in an appropriate setting licensed by the professional regulatory and licensing authority in the country of practice
- Bahraini nationals, new graduates are exempted from experience requirements for the basic entry level
- All other applicants are required to fulfill experience as per their relevant titles according to the PQR

### 1.3 Professional License and Good Standing Status

- The applicant must be registered and have a valid professional license to practice, or registration from home country and/or country of last employment
- The applicant must provide evidence of meeting the minimum required experiences for the applied category
- Certificate of Good Standing (CGS) must meet the following requirements:
  - Valid and not older than **six (6) months** at the time of application for licensure
  - Issued by the professional regulatory and licensing authority in the country(s) of last employment
- NHRA may request more evidence or conduct investigations if deemed necessary to prove the status of good conduct of the healthcare professional
- The applicant must declare that he/she has never been convicted of any legal cases, medical malpractice during his/her practice of the healthcare profession, or he/she is currently under investigation

### 1.4 Primary Source Verification

- The documents required for licensing shall be verified directly from the original or primary source
- These documents include but are not limited to educational qualification(s), experience certificate(s), professional license(s), good standing certificate and/or any other documents deemed necessary by NHRA

## 1.5 Bahrain Medical Licensure Examination (BLE):

- All physicians must pass NHRA's BLE in order to obtain the professional license in the Kingdom of Bahrain
- Interns (graduates from local universities) may apply for the licensure exam after completing six months of their internship year
- Interns will not be issued a license to practice except after providing proof of successful completion of their internship
- The validity of the licensure examination is five years only

### BLE Exemption Policy

Only Bahraini or GCC nationals holding a valid GCC license will be exempted from the licensure examination

### BLE Attempts

Physicians have a total of four examination attempts provided the following conditions are adhered to:

1. Each physician may attempt the examination four consecutive times provided the attempts are done within a maximum of three years from the date of the first attempt.
2. Only Bahraini physicians if did not pass the exam after the fourth attempt, he/she is required to go through a period of training in a licensed hospital for a minimum of six months.
3. The training should cover the basic medical fields including medicine, surgery, pediatric, and obstetrics & gynecology.
4. Only Bahraini physician After bringing a proof of completion of training, two more consecutive exam attempts may be permitted provided that the attempts are within two years from the date of completion of training.

## 1.6 NHRA Specialist Examination (NSE):

- Tier 3 qualification holders must pass an NHRA specialist examination if their training was done outside the Kingdom of Bahrain.
- The NSE examination is provided either electronically or by other means including but not limited to written exams, short cases, or interviews.
- Bahraini physicians applying for a specialist license but who have not completed the required years of experience post-qualification will be required to pass the specialty examination, however they will be not granted specialist license until they complete the required years of experience under supervision of consultant as per this PQR.
- Non-physicians Dentists applying for specialist license should complete the required years of experience post qualification to attempt the specialist examination.

### NSE Attempts:

Physicians have a total of four examination attempts provided the following conditions are adhered to:

1. Each physician may attempt the examination four consecutive times provided the attempts are done within a maximum of three years from the date of the first attempt.
2. Only Bahraini physician if does not pass the exam after the fourth attempt, he/she is required to go through a period of training in a licensed facility for a minimum of six months after getting an approval of NHRA.
3. The training should cover the field of specialty only under supervision of a consultant from the same specialty.
4. Only Bahraini applicants After brining a proof of completion of training, two more consecutive exam attempts may be permitted provided that the attempts are within two years from the date of completion of training.

## 1.7 Discontinuity (GAP) of Practice:

**This section applies to Bahrainis ONLY**

Physicians who discontinue their practice for at least **three (3) years** and opt to be licensed in the Kingdom of Bahrain are required to **pass the NHRA licensure assessment as the first step** to obtain the license to practice and **must undertake the following actions:** -

1. Apply directly to take the NHRA licensing exam, **if passed the first exam attempt professional** will obtain a license to practice and **work under the supervision of a licensed professional with same specialty for one year**
2. a professional **who fails in the first exam attempt** will be required to go through **CPD credits and a clinical training program** and must follow the **requirements below:** -
  - A. All training programs and CME credits shall be carried out in approved practice setting by NHRA in
    - ❖ **(6) months of training on a full-time basis (7 hours a day/ 5 days a week)**
    - ❖ **100 CME/CPD credits**
  - B. All CME/CPD credits must be related to the practice specialty of the healthcare professional.
  - C. All applicants are required to complete a clinical training program which shall be determined by NHRA in the specialty field;
3. applicants after completion of CPD credits, and the clinical training required to re-attempt the NHRA licensure exam (according to the number of attempts NHRA exam policy) if passed the re-attempt exam professional will obtain a license to practice and work under the supervision of a licensed professional for one year.
  - Physicians are required to provide a health fitness certificate to practice
  - **Non-Bahraini nationals** will not be able to apply for a license (as a new profession license) if they have a gap of clinical practice for (3) years and above.

## 2. Renewal of Licenses

- 2.1. Physicians must accumulate a minimum of 30 CME/CPD hours annually
- 2.2. CME/CPD must be relevant to the field of the specialty
- 2.3. CME/CPD hours should be submitted annually to NHRA even if the license is renewed for more than one year
- 2.4. Bahraini physicians who are issued licenses without the specification of a facility must:
  - 2.4.1 Renew their license for one year at a time
  - 2.4.2 Prove the continuity of their practice (must provide proof of a minimum of one full year of practice during the three years)
  - 2.4.3 Failure to provide continuity of practice will lead to the physician being considered in a gap of practice and will need to fulfill the discontinuity of practice requirements as per the requirements of this PQR prior to their license being renewed
- 2.5. License can be renewed up to a maximum of three years each time
- 2.6. A health fitness certificate is required every three years at the time of license renewal

## 3. License Re-categorization

- 3.1 Physicians may apply for a re-categorization of their license supported by the following documents:
  - 3.1.1 A formal competency letter from Chief of Medical Staff
  - 3.1.2 Additional qualification obtained
  - 3.1.3 Verification of the qualification if obtained from outside the kingdom of Bahrain
- 3.2 All re-categorization applications must fulfill the years of experience required post qualification as per this PQR

## 4. General Regulatory Items

- Healthcare facilities should not employ a healthcare professional at a higher category than that given by NHRA.
- All professionals holding administrative, academic, and other non-clinical positions will not be licensed by NHRA unless they prove continuity of clinical practice.
- Non-Bahraini's wives married to Bahraini nationals will be treated as Bahraini in regard to the policies of experience, number of examination attempts, and discontinuity of practice
- Nhra reserves the right to r-evaluate any health care professional should the need arise.
- All healthcare professions categorize should practice within their specified scope of practice framework
- For physicians who hold Tier Two qualifications and go through a structured fellowship training of no less than one year, the period of the fellowship will be calculated as part of the clinical experience required for that tier for the general specialty.
- Physicians applying for a license in a sub-specialty must provide proof of a minimum of a one-year fellowship clinical training in the same sub-specialty. CPD certificates will not be considered as training for the sub-specialty.
- Specialists must perform surgical interventions/invasive procedures under the supervision of a consultant (please refer to Medical Supervision Policy).
- Applicants must provide proof of successful completion of residency training or completion of training in the country granting the qualification.
- For recategorization requests for Bahrainis and Bahrain residents who started the higher educational programs before this PQR was approved, the old PQR will be applied for their licenses recategorization.
- Professional licensure and registration titles are independent from employment grade and titles.

- Bahraini's who are issued licenses without the specification of a facility must:
  - Apply for a transfer of their license as soon as they obtain an offer letter
  - They should not start their practice in the prospective facility except after the transfer of the license
- This PQR shall be reviewed once every three years.

## Qualification and Experience Requirements for Physicians Licensure

Employment Title	License Category	Qualifications	Experience and Other Requirements
