

Medical Devices Safety Notice

The National Health Regulatory Authority would like to alert all governmental and private healthcare facilities, local agents and distributors that the below medical device:

Device Details	
Device Name	Shield Hand Sanitizing Gel
Lot No.	All
Manufacturer	Bonn Medical Industries
Country of Origin	Saudi
Reference	https://twitter.com/Saudi_FDA/status/1238499107007799299
Device picture	 The image shows three bottles of Shield Hand Sanitizing Gel. One is a large white bottle, another is a smaller white bottle, and the third is a blue bottle. A red circular warning sign with the Arabic word 'تحذير' (Warning) is overlaid on the bottom right of the products.
Reason of Recall	NHRA initiates this FSN due to high percentage of methyl alcohol (methanol) in the above-mentioned product, and exposure to high levels of this substance may cause health risks to the consumer.
Action taken	Please stop using the above-mentioned defected sanitizing gel and dispose of it.

Your cooperation is highly appreciated in improving health services in the Kingdom of Bahrain.
