

## **Circular No. (10) 2022**

Date: 21<sup>st</sup> February 2022

### **To all Private Hospitals**

#### **Subject: Managing Covid cases at your facility**

Pursuant to the decision of the national task force to combat Covid-19, all hospitals should manage cases infected with Coronavirus (Covid-19) that needs treatment not related to the infection with the virus, according to the following criteria:

- **The patient has been admitted to the private hospital for reasons not related to the infection with the Coronavirus (Covid-19).**
- **The patient must be less than 60 years old.**
- **The patient does not have severe symptoms and have a normal oxygen level.**
